Nancy- Good questions on the budget fact sheets. Bruce is pulling responses together, including fact sheets on asbestos and sugar beets, and answers to your other questions.

Got it. We'll get a revised TRI and new asbestos to you today.

I looked at the original list of fact sheets that we developed and did not see Sugar-beets or Asbestos.

I am copying the programs so that they can develop sheets if they do not exist.

Thanks,
Bruce

Subject: budget fact sheet questions

I have a few questions on our OCSPP fact sheets which I was asked to review to look at the talking points:

- ☐ ☐ ☐ ☐ ☐ ☐ EDSP- we mention that it will be absorbed within pesticides, but what about by LCSA (new and existing chemical reviews)? Was the original requirement specific only to pesticides?
- ☐ ☐ ☐ ☐ ☐ ☐ Pesticides budget-the talking points note the budget shift of funding source, but there is no talking point about how we will make up the 26.5M reduction. Is there anything we can say about this? Also in the table, in the last set of columns (the delta for \$ and FTE), the numbers don't seem to add up—or perhaps I'm not understanding what the total line means.

- TRI- it looks like the budget is being cut. However the background doesn't seem to mention the cuts and the talking points don't mention how they will be absorbed. Should we modify?

I would need to send the edits by COB Wednesday (tomorrow).

Finally, do we need fact sheets on asbestos and sugarbeets?

Thank you!

Nancy
